Overview

MDS 3.0 is a critical nursing facility assessment tool that can directly impact resident quality of care, survey outcomes, your publicly posted quality measures and your reimbursement. Make sure you and your staff know how to complete the MDS 3.0 accurately the first time!

This two-day course is the most comprehensive MDS 3.0 training offered in Oregon, and the only class that presents the provider's perspective on this key assessment tool.

In this training, participants will review:

- **All** sections of the MDS 3.0 and rules pertaining to each
- The Care Area Assessment (CAA) Process
- The PPS schedule
- How the MDS is used in the survey process
- Utilizing Casper Quality Measures Reports for Improving Care

Important: This class is designed for staff who seek a thorough review of the MDS 3.0, whether they are veteran staff or newcomers.

Participants will receive:

- List of procedures for completing the MDS and CATs
- Guidelines for documenting CAAs
- Examples of completed CAAs
- Regulations pertaining to the MDS
- Handouts related to Quality Measures

Important: Bring MDS 3.0 Manual
Participants must bring with them to class the full version of the latest manual, either printed or downloaded to their laptop. The manual may be downloaded from the CMS website or click here

Faculty

Demi Haffenreffer, President, Haffenreffer & Associates

Who should attend

Administrators, DNSs, RCMs, any staff member responsible for completing any part of the MDS. *Note: Attention will be given to all participants of the care planning team, including Dietary, Activities, Social Services and Nursing.*

Fees
