

### **Get Ready for MDS Changes Coming October 1, 2023**

October 1, 2023, will bring significant changes to the MDS. Organizational leadership needs to be prepared and plan updates to data collection and documentation processes to ensure accuracy and limit revenue loss. Attend this 4-hour workshop for a section-by-section review of the changes, and instructions for coding. Information will be provided related to operational processes to consider as well as staff training.

This course is a supplement to the 3-day MDS 3.0 course that is offered throughout the year.

MDS 3.0 is a critical nursing facility assessment tool that can directly impact resident quality of care, survey outcomes, your publicly posted quality measures and your reimbursement. Make sure you and your staff know how to complete the MDS 3.0 accurately the first time. The MDS 3.0 training webinar course takes place over 3 days and presents the provider's perspective on this key assessment tool. Check our website for more information.
