October 6, 2023

CMS' Proposed Staffing Rule is Out of Touch with Reality. Take Action Now!

The proposed nursing home staffing standards would require 90,000 additional new nurses and nurse aides and would cost an estimated \$7.1 billion per year. Take action [here](#) and submit your comments directly to the Federal Register. Be sure to include specific details on how the rule would impact your community and individuals you serve.

Support HR 5796 to Prevent implementation of the Proposed NF Staffing Mandate. Take Action Now.

The Protecting Rural Seniors Access to Care Act was introduced in the House to keep the CMS from implementing its proposed staffing mandates for nursing homes. [Take action today](#) and tell Congress to support the new bill and protect rural and underserved communities already facing a crisis in access to care.

The 2023 Quality Measurement Program data collection tool is open.

All Oregon residential care and assisted living facilities must report required metrics to ODHS no later than January 31. Be sure your community has selected a [CoreQ vendor](#) to
